Mullion Keypad

TA-1434-BZ
Bronze Finish
Mullion Keypad

TA-1434 keypads can be used with either the TA-2443 or TA-2454 Wiegand access controllers. These keypads are elegantly designed, with backlit keys suitable for indoor and outdoor applications. Each keypad demonstrates superior durability in any environment. The TA-1434 keypads mount directly to mullion doorframes or any flat surface. No backbox required. In addition, for convenient installation the TA-1434 keypads feature a separate doorbell key and relay. Durability, ease of installation, and attractive design make the TA-1434 a solid addition to any TAC installation.
